**A) Commencement Date**

Mills has commence Commercial Production from 01.01.2002.

**B) Production Capacity**

The state of the art unit will produce Grey Fabric in 100% cotton & polyester / cotton blends form fine shirting's to heavy drills, twills, satins and sheeting's with a capacity of 40 million Sq. meter annually.

### C) Produce Range & Capability

The weaving machine can weave Grey fabrics in the following width.

The following weave pattern can be wovens.

1/1,2/1,3/1,4/1,2/2, as well as combination weaves 3 1 . 2 1

1 1 2 1

The goal is to go for value added articles from fine yarn count Ne30,Ne40,Ne60 and dense pickage cloth, catering to high tier market requirement of home furnishing, bed linens, down proofs.

### Workforce

Total of 400 employees.

- The technical personnel hired are all technically qualified with minimum of seven years of practical experience.
- The production staff have a minimum educational qualification of High School 10<sup>th</sup> grade and the supervisory staff are diploma holders.
- The Marketing & Finance Department are headed by qualified mangers and are in touch & abreast with the modern trends and developments.
- As independent costing & cost control department has also been setup to monitor the inputs an costs, thereby ensuring as effective control on the product cost.
- A fully computerized Production Control Management reporting system is envisaged to be setup later.

### Qualities we have weaved are:
